

Personal Evangelism Workshop

By Rev Dr Elisha Chua

WHAT IS THIS WORKSHOP ABOUT?

Jesus was so clear about his mission on earth, that he weaved his mission into his day-to-day activities and interaction with people from different walks of life. He was clear on what he wants to do, and he did what he did.

HOW ABOUT US?

How can I weave this 'mission' into my day-to-day activities and my interactions with people that it becomes a natural part of my lifestyle?

PERSONAL EVANGELISM WORKSHOP therefore seeks to explore how we can intentionally live out our mission as we go about our daily routines, activities, at home, church, and workplace with different people.

The workshop is based on field lessons and principles which have been proven effective and fruitful. These lessons and principles are called fruitful practice. This is not a set of formulas to follow. Instead, we offer descriptions of significant principles. You must always apply your own knowledge of local conditions as you prayerfully adapt these practices to work in your own context.

All participants are expected to interact and participate in all activities. Come with a passion for souls. Come with a passion for someone you love. And come because you love God and want to be obedient to him.
